CAREER OBJECTIVE

BSc IT final-year student with experience building SQL-driven systems and data pipelines to analyze user activity, booking trends, and engagement patterns. Skilled in Python, SQL, Power BI, and Excel. Looking for a data analyst internship where I can turn raw data into actionable insights and contribute to real business decisions.

EDUCATION

BSc Information Technology (BSc IT) | Laxmichand Golwala College, Mumbai 2023 – 2026
Final Year Student

TECHNICAL SKILLS

Languages: Python, SQL

Tools & BI: Microsoft Excel, Power BI, Tableau

Databases: MySQL

PROJECTS

SkillBridge – Data-Driven Learning Platform [Live Demo](#) 2025 – 2026
PHP, MySQL, SQL

- Designed a relational MySQL database with 5+ tables and 100+ records to store bookings, reviews, and session data.
- Wrote optimized SQL queries (JOINS, aggregations) to track user activity — identified peak booking hours and engagement trends to support better scheduling and user engagement optimization, reducing manual lookup time by 40%+.
- Developed an Admin Dashboard with real-time KPIs on registrations, session volume, and platform usage — enabled data-driven decision-making for resource allocation and platform management.
- Analyzed review patterns across 3 rating parameters — enabled data-driven decision-making for teacher ranking logic and surfaced top-performing educators for better student matching.

Language Translation Tool – Text Data Pipeline [Live Demo](#) Jan 2026 – Feb 2026
Python (Flask), deep-translator API, Render

- Built and deployed a real-time multilingual text data pipeline supporting English, Hindi, and Marathi — processing raw user input through backend logic and external API calls to deliver clean, structured translated output.
- Implemented client-side and server-side caching — reduced API response time by 30%+ for repeated queries.
- Processed and structured unstructured text data, parsed API responses for accurate structured multi-lingual output across 100+ translation requests.
- Deployed live on Render; integrated TTS feature to make translated data output accessible to end users.

CERTIFICATIONS

Data Analytics Job Simulation – Deloitte Australia (via Forage) April 2026
Completed practical tasks in data analysis, data visualization, and deriving actionable business insights.

Data Analyst Certification – OneRoadmap April 2026
Demonstrated understanding of data analysis concepts and analytical thinking through assessment.

AI Fluency: Framework & Foundations – Anthropic April 2026
